PROFESSIONAL SUMMARY

A motivated second-year B.Tech AIDS student with a strong foundation in web development, SQL, and programming. Seeking an internship opportunity to apply my technical skills, expand my practical knowledge, and contribute to innovative projects.

LEARNING AND COURSEWORK

- Self-taught web development through YouTube tutorials
- Basic SQL for database management
- Introductory OpenCV for computer vision projects
- Currently improving problem-solving skills in Python, C, and Java

PROJECTS

Smart Attendance System:- Developed a face recognition-based attendance system using PyQt and OpenCV, Designed an intuitive GUI using PyQt for better user interaction, Stored attendance data efficiently using SQLite

Translator Web App
Developed a web-based translator for real-time language conversion.

ACHIEVEMENTS & EXTRACURRICULAR ACTIVITIES

IEEE club member

EDUCATION

Shadan College of Engineering and Technology
Expected graduation 01/2027

B.Tech : AIDS Candidate

SKILLS

- Python
- C
- Java
- HTML
- CSS
- JavaScript
- SQL
- VS Code
- Git
- GitHub
